## Accuplacer Testing for College Admission

Accuplacer is a computerized placement test for anyone who has been referred to the Office of Student Academic Support Services because he/she either has no ACT or SAT placement score for English and mathematics placement or a prospective student has never taken a placement test (ACT, SAT, COMPASS).

This is an untimed test. Average time to take it is approximately two hours. There is no "pass/fail." Test scores are needed in order to place you in appropriate-level math or writing courses. Included are tests for **Reading; Arithmetic; Basic Algebra;** and **Sentence Skills**. Your test results are available immediately following the test and Anna Mary Walsh, Program Specialist in the Academic Support Center, will explain the scores to you.

Following your meeting with her, the results will be taken to our Admissions Office, where our counselor will continue processing your application.

The sooner you contact our office to set up a test date, the sooner the Admissions Office can begin/continue to process your application for admission.

Testing will be on dates/times when a computer lab is available. The test dates are:
