Student Employment – Federal Work Study
Fall 2012-Spring 2013

Student Lab Assistant/Student Grader
Anatomy and Physiology

Student will assist Anatomy and Physiology instructors in the lab classroom during class room time each week, along with the grading of some assignments. Students will include providing guidance to students as they complete lab activities, careful and meticulous grading, recording of scores, and reliable, punctual return of assignments to students each week.

Position requirements:

• Student must have obtained an A or B in the courses for which they will be assisting
• Student must be enrolled in at least six (6) undergraduate hours at Blue Ridge CTC and be making progress towards a degree.
• Student must be reliable and actively participate in the lab class or classes that are assigned weekly.

Several Positions available - The positions are located in the Headquarters building on Apple Harvest Drive
