HelpNowTM

Online Tutoring for Higher Ed

Brainfuse HelpNow, a unique suite of tutoring, study, and collaboration tools, has been proven to boost academic performance and increase student retention.

Since its founding in 1999, Brainfuse has grown into one of the world's leading online tutoring companies. Thanks to an industry-leading tutor team, a sustained track record of success, and an unmatched level of quality control, thousands of institutions trust Brainfuse as their sole tutoring provider.

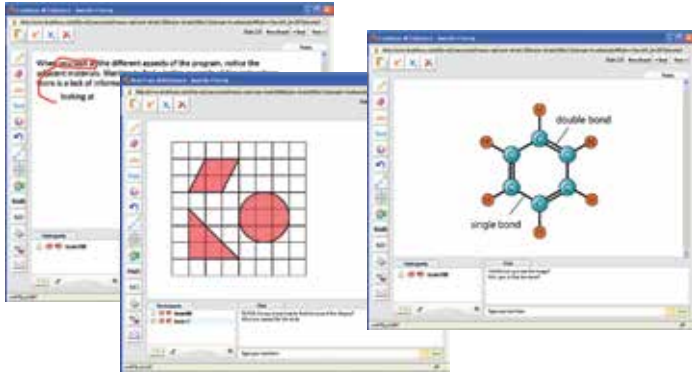

RETENTION. REMEDIATION. FULL ACADEMIC SUPPORT.

HelpNow supports students throughout every stage of the learning process.

EXPERT HELP CENTER

Brainfuse's Expert Help Center provides live, on-demand tutoring, skills building, and expert writing assistance.

LIVE ONLINE TUTORING

Students enjoy live, on-demand homework help from Brainfuse certified tutors in a variety of college subjects. Tutors and students communicate in real time through the Brainfuse Online Classroom.

ONLINE WRITING LAB

Our writing lab is firmly rooted in the research-based methodologies of some of the nation's leading collegiate writing programs. We support students during all phases of the writing process, with an emphasis on structure, voice, word choice, content, and sentence fluency. Students have the option of submitting papers to our Asynchronous Writing Lab or connecting with a live writing expert in our Live Writing Lab.

• Asynchronous Writing Lab:

Students submit their writing online through our secure messaging service. Within 24 hours, our writing specialists return the paper along with a detailed analysis that focuses on organization, voice, and thematic coherence. We can also customize our analysis to meet your institution's needs.

- **Live Writing Lab:** Students who are in the preliminary stages of the writing process (or who just prefer more immediate feedback) have the can receive live, one-to-one writing assistance from one of our writing experts.

SKILLS BUILDING TOOLS

While other online tutoring services focus solely on providing homework help, HelpNow also includes innovative features to improve retention rates, prepare for standardized tests, and build core college skills.

LEAP™ SKILLS BUILDING

Our LEAP platform helps students identify areas of weakness through a diagnostic test and then provides a customized learning plan that includes lessons and live tutoring. LEAP is an ideal solution for institutions looking to help struggling students and increase retention rates.

LEARNNOW™ SKILLS LIBRARY

LearnNow consists of hundreds of video lessons, quizzes, and other content to help students master fundamental skills.

TEST PREPARATION

Our Test Center provides unlimited access to an ever-expanding library of college skills assessments, including COMPASS and ACCUPLACER.

Students receive results instantly and can share them with a tutor for targeted skills building.

STUDY/COLLABORATION TOOLS

We designed our unique study and collaboration tools to enhance the tutoring experience, foster cooperative study, and facilitate self-guided learning:

FLASHBULB™

One of the most versatile flashcard programs ever developed, Flashbulb allows students to easily create their own flashcards for efficient self study. Flashbulb also features a library of over 10,000 flashcards in hundreds of subjects.

MEET

MEET is an interactive online meeting platform for students to host study groups and for faculty to offer virtual office hours.

OUR TUTORS

No other online tutoring company devotes more resources to selecting tutors of the highest caliber:

- All tutors have bachelor's degrees, and the majority of tutors have master's degrees.
- All tutors must have prior teaching or tutoring experience.
- We regularly monitor tutors to ensure that they meet strict performance standards.

BRAINFUSE MOBILE APP

The Brainfuse Mobile App has been designed to enhance HelpNow by providing anywhere access to learning materials and study tools. Our mobile app lets users connect with Brainfuse tutors from any iOS or Android device and submit papers to our writing lab. In addition, it allows users to take class notes, access their CloudPack, access to their Flashcard library and study alerts with our homework tracker.

SYNC WITH CLOUDPACK™

Our CloudPack service allows users to enter, store, and access class notes, study tools, and other academic materials via any computer or mobile device. Users can also share their CloudPack content with tutors during live sessions.
