## **“As a member of the Army National Guard...**

completing my education allows me to further my rank and responsibility in the military. Through tuition assistance programs and the GI Bill, I have the resources I need for myself and my family while I am attending College. I found my educational opportunity at Blue Ridge CTC and encourage other members of the military to explore what the College has to offer. Every staff member has treated me like family, and I am proud to be enrolled in a school that has a student's best interests in mind.”
